

Macleod Council Satisfies Board Of Utility Commissioners

Considerable interest is attached to the visit of the Town Council to the Board of Public Utility Commissioners at Calgary on Thursday last. There were present at the meeting, Mayor McDonald, Councillor David M. Reeves, Manager of the Canadian Bank of Commerce, Mr. Oliver, Superintendent of Utilities, and Mr. Brown, Secretary Treasurer of the Town.

Mayor McDonald addressed the Commission at some length indicating clearly what the position of the Town was in relation to the matter of interest on debentures. This was followed by a discussion of the details of which cannot yet be made public, but it is safe to say that the Commissioners indicated their entire agreement with the application made.

The Town is now in a practical ability to pay all debt except for debentures and debenture interest, and has the approval of the Commission.

placers in using a portion of the money now on hand for running expenses as well as to render any Bank Commission at Calgary. The Commissioners approved of the carrying out in 1923 of the program arranged for that year by the Municipal Finance Commission.

Upon the whole a most satisfactory meeting was held and one which should tend very greatly to the satisfaction of the rate payers of Macleod.

U. S. Studies Alberta Geography
According to letters being received
by the Publicity Branch of the Pro-
vincial Government, the geography of
Alberta is now being taught in many
of the city schools in large American
cities. Requests have recently been
received to a considerable number
of the city schools in Chicago and points
in Illinois and Ohio.

Decrease in Jail Population
A considerable decrease in the
numbers of those confined in the two
Provincial Jails is shown in the re-
sults of the last census taken before
the Legislature.

The daily average in the Saskatch-
ewan Jail during that year was 184
compared with 232 in 1931, and the
daily average of 1931 in the
Lethbridge Jail was 110 compared
with 122 in 1932. The jail farm at
Fort Saskatchewan produced 13,400
bushels of grain during the year and
the farm at Lethbridge produced
17,000 bushels of grain.

Provincial Telephone Finances
In spite of reductions in staff and
other economies, the provincial tele-
phone system ended the year 1932
with a deficit of \$116,782. The deficit
on the accounts submitted to the Legis-
lature this week.

The deficit is almost entirely made
up of the sum required by statute to
be provided for the sinking fund. The
actual operating deficit was \$20,650,
but the provision for the sinking fund
totalled \$116,782. The heavy out-
let of interest, etc., being carried
by the system is chiefly responsible
for the deficit.

Reductions have been made in the
staff and operating expenses. In Jan-
uary, 1932, the staff was stated to be
2,125, and in February, 1932, had in-
creased to 2,662. The monthly oper-
ating expenses in 1932 had been \$111,
775, while the monthly operating
expenses now are \$74,702. The total
reduction yearling in operating
expenses has been \$44,773.

LOCAL OPTION TO STAND; NO
BEER IN DINING CARS

Edmonton, Jan. 7.—It was a pre-
liminary field day in the legisla-
ture Thursday afternoon when the
House of Commons passed the Local
Option Bill, which would allow the
provinces to decide whether or not
they would have beer in their dining
cars.

There are some of the things the
legislators did to the bill. The bill
would allow the provinces to decide
whether or not they would have beer
in their dining cars.

COULD HARDLY STAND THE PAIN

Hicks will Dreco came to help him.
Wounded man improved rapidly
from one bottle of this grand rem-
edy.

Mr. Allan Russell Hicks, of 24 West
Lynn Ave., Toronto, was having a ter-
rible time of it when he fortunately
heard of Dreco and decided to try it.
Here is his experience with this great
natural health-builder.

"My stomach was in bad shape,"
said Mr. Hicks. "After eating, my
food didn't seem to properly digest,
causing a lump in my stomach. I
would belch and burp and had heart-
burn from the gas. My kidneys were
in bad shape, and at times I could
scarcely stand the pain across my back,
especially when bending over. Catarrh
of the nose annoyed me terribly. I
was constantly trying to clear my
throat. It finally settled in my stom-
ach. I think most of my troubles came
from my bowels, as I was always con-
stipated, and had to be taking harsh
laxatives to keep them open. My sys-
tem became very weak and run-down
and I felt miserable."

"I heard about Dreco and have only
taken one bottle, but the results are
very noticeable, as I have greatly im-
proved in every way. I feel much
stronger and my bowels are very
regular. I am much pleased with
Dreco, and intend to complete the
treatment."

Dreco contains no mercury, potash
or habit-forming drugs. It is a re-
liable corrective for digestive dis-
orders, and has brought better
health to thousands of sufferers.

Dreco is being specially introduced
in Macleod by A. D. Ferguson, and is
sold by a good druggist everywhere.

Carrying liquor was over
one of the sharpest fights was over
section 16 of the registered bill
reading:

"It shall be lawful to carry or con-
vey liquor to any government store,
and when permitted so to do by this
act and the regulations thereunder,
and in accordance therewith, it shall
be lawful for any common carrier or
other person to carry or convey liquor
sold by a vendor from a government
store, or beer, when lawfully sold by
a brewery from the premises where
such beer may be lawfully kept and
sold, to any place to which the same
may be lawfully delivered under this
act or any regulations made there-
under."

"Provided that no such carrier or
any other person shall open or break,
or allow to be opened or allow to be
broken or used any liquor therefrom
while being so carried or conveyed."

M. C. McKen, deputy speaker, La.
St. Anne, bitterly criticized the pro-
vision to the section as designed to
create law breakers. It either meant
that a man who opened his legal
bottle of liquor and took it to a
hotel room had to drink the whole
bottle before he left or he made a
new breaker if he took the open
bottle away from the hotel.

Need of Control
Mr. Brown argued that some re-
striction against conveyance of open
receptacles of liquor in automobiles
and other carriers was absolutely nec-
essary to carry out the spirit of con-
veying to the act and prevent boot-
legging.

Mrs. M. McNair referred scorn-
fully to the section, saying she had
changed attitude of the people who
had taken a drink in their own homes
because they needed it, and now
they were going to be taken away.

"This kind of talk does not wash
down," she declared. "McKen. 'Every-
one knows perfectly well what is
going to happen. Someone will take
an open bottle from one hotel to an-
other when they travel.' 'If you ask
me, I should change the act so that
bootleggers may avail themselves of
it.'"

"But it will happen in the natural
course of events," insisted Mr. Mc-
Ken.

"No, not necessarily," stubbornly
replied Mr. Brown. "The object
of this act was to allow a man to
consume liquor in his private resi-
dence and that is what it does, not
to allow drinking in public conven-
iences."

LORDS TENDER FAREWELL TO
W. T. FLEMING

Members of the Oldfellows and the
Bobbaks gathered at the 1000
Hall on Wednesday night, in a fare-
well card party and dance to Mr. and
Mrs. W. T. Fleming.

During the evening E. Foster
Brown presented the departing guest
with the Past Grand Jewel of the
Oldfellows, making a suitable address
for the occasion, expressing the re-
gret of the local Oldfellows in the
departure of Brother Fleming, and
wishing him every success in his
future path of life.

Mr. Fleming responded in a short
speech thanking Mr. Brown for his
kind remarks, and the same time
stating that he would always carry the
pleasant memories of his local Oldfel-
lows with him.

There were 24 tables for the cards
and over 100 people enjoyed the
program following. Wesley Shields
was the capable floor manager.

Why Ford Predominates

A Triumph of Mechanical Simplicity

The Ford is without superfluous
parts, yet has everything needed for
efficient operation.

Like all great engineering accom-
plishments, it has progressed through
simplification—the reduction to fun-
damentals.

This process of simplification has
brought into being many of those
distinctive features which are found
exclusively in Ford cars. The Ford
planetary transmission and three-
pedal control are among those features.

Experts agree that they are ideally
suited to the small light car.

Another feature is the Ford magnum,
so remarkable in principle and so suc-
cessful in practice that a complete
unit was recently presented by re-
quest—to the Smithsonian Institution.

There are many such features, but
these are sufficient to indicate the
sound foundation upon which engi-
neers have pronounced the Ford to be
a triumph of mechanical simplicity.

GROCERIES AND PROVISIONS

FRUITS, VEGETABLES AND SALADS ALL THE YEAR AROUND

In the old days we used to sell patent medicines before the
advent of drug stores. In giving up drugs, pills, etc., there
was a cough syrup called "Hirst Cough Syrup." It has been
handled by us for the past thirty years. It is an old, estab-
lished medicine, but the proprietary rights have run out,
and the original formula lost, and the house who had this
agency could not supply us with any more. We therefore
tried all the houses who handled medicines, but "No," the
answer came back, "The receipt lost, inventors dead," then
when hope had vanished, a wire came—"In cleaning up our
basement came across five cases Dalley's Cough Syrup,
changed to Hirst's by the inventors after selling the origi-
nal receipt." We at once telegraphed back—"Send all you
have at once." It came—it is here. Now, from our personal
experience, it is the best medicine for croup and pulmonary
troubles that is on the market, and Mr. Reach is certain
that one of his children was saved in a bad attack of croup,
besides other intimate friends of his who would rather
lose fifty dollars than be without it. After this lot is sold
there will be no more; in the case of a loved child what a
joy it is to be certain that if you had not had a bottle in
the house the child's agony would be prolonged, or it
would have lost its life. We will sell the remainder at 85c
per bottle.
